PERSONAL STATEMENT

I am a motivated young man looking to work in the technology field. Through my education and work experience, I have developed a strong analytical ability and the capacity to apply logic, critical thinking and an out-of-the-box perspective to tasks and problems at hand. I am people-oriented, easy-going and adaptable, and enjoy working in a team environment. I am seeking a position at a company with a clear focus on optimization and innovation. I am passionate about nature, outdoor activities and particularly endurance sports.
